'BY TELEGRAPH. Vice President Wilson-The Ar kansas Committee.

Ransas Committee.

New York, Jan. 18.—Vice President Wilson has written a letter to Samuel Bowies, of the Springfield Republican, in reply to a paragraph in that journal alleging that he (Wilson) believed the Republican party is dead. Vice President Wilson disclaims such beliet, and is convinced the party is not dead nor hopelessly defeated. All that is needed is a wise and magnanimous policy.

Those who separated from the party and supported Greeley should be invited back and freely forgiven, and a liberal, magnanimous policy stopted towards the South. He carnestly advises immediate reorganization on the above basis. The WHITE LEAGUES—A STRANGE STORY

THE WHITE LEAGUES-A STRANGE STORY -OFF FOR NEW ORLEANS.

The Times Washington special says two members of the Louisiana committee are willing not only to excuse, but to justify the White League organization, finding a precedent for its existence in the armed target companies elsewhere. They regard the league as innocent as a target company.

A snow-storm commenced early this morning and still continues heavily. The weather is cold, and navigation much impeded by ice in the rivers.

The morning papers publish a strange story concerning the arrest in New York a lew days ago of thieves who stole the

a lew days ago of thieves who stole the famous picture of St. Anthony from the Oathedral at beville, Spain, several

months ago. Fernando Garcio with Antonio Somai-Fernando Garcio with Antonio Somairabo, an interpreter, sold the picture to Strauss of Broadway for \$250. On leaving the store they were forced into a coach by three Americans and driven to the National Hotel. After examination Somairabo was released, and Garcio held and taken to Spain a few days ago. It is believed the affair has been managed by detectives in the pay of Spain. The Spanish Consul denies all knowledge of the affair.

A Washington special says that three Bepublican members of the Special Com-

A Washington special says that three Republican members of the Special Committee on Louisiana, who are dissatisfied with the report of the sub-committee, start for New Orleans to-day. Their special object is to collect evidence regarding the White League and the election of 1872.

The report of the Arkansas Committee is not yet ready despite unauthorized respectively.

is not yet ready despite unauthorized re-ports to the contrary.

Hanged by a Mob. Special to the Star.

UHBANA, Jan. 18 .- G. W. Ullery, the tramp who committed a rape upon Netlie Morgan, in the woods on Tuesday last, intending, as it is supposed, to kill her afterward and burn her body to hide the crime, was taken from the jail yesterday morning by a mob of forty masked men, and hanged to a tree in the jail-

An attempt was made on Thursday alght to lynch him but failed, and the sail was strongly guarded at the time of the hanging yesterday. The guards were, however, overpowered and bound by the mob and the doors of the jail broken

mob and the doors of the jan value open.

The utmost order and quiet prevailed among the company. No names being spoken, but the orders given by calling upon the men by numbers. After the doors were broken open he was taken from his cell, hurried to the tree, bound and given two manutes to pray, and the box upon which he was forced knocked out from under him. He died, it is said, with scarcely a struggle. The Sheriff was scarcely a struggle. The Sheriff was notified, but did not arrive until the

work was finished.

The little girl, the victim of his brutal atrocity is still living, and hopes of her recovery are entertained. An inquest was held and a verdict of "hanging by persons unknown to the jury" was rendered.

Farmers' Club Meeting-Union Sunday

School-Thief Returned, etc., etc. DAYTON, O., Jan. 18-The meeting of the Montgomery County Farmers' Club at the Commercial Rooms last Saturday was well attended by members and their wives. Mr. J. H. Hlepport, who was to have delivered the address, did not make his appeaarance. The discussion was chiefly upon the subject of planting fruit

trees.
There were eighteen births and seven teen deaths in the city for the week end-

ing Friday the 15th.
There was a very large attendance the Union Sunday-school meeting yester-day. Mr. C. M. Nichols, President of the State Sunday-school Union Association and other gentlemen prominent in the cause, delivered addresses.

The weather is still very cold and the

ice harvest continues excellent.
The man Zeigler, who was arrested in Eincinnation Friday, charged with stealing a diamond ring and a sum of money from Mr. John Harris, of this city, was returned here Saturday evening, and placed in jail. He has acknowledged

the theft.

Mr. L. A. Tenney, a well-known and popular citizen of this city, died Saturday evening, after a long illness. He was a prominent Knight Templar.

The loss on the Decamp building has been adjusted satisfactorily, and the companies will pay all indebtedness during the present week, when the firm will at once recommence their business.

At first their success was out partial, only a few Granges under the plan were organized, owing partly to the want of speakers and deputies to show to the farmers the object of the Order, and also to the natural cautionsness of countrymen in embracing any new plan to relieve themselves of evils to which long

King Cakobau's war club has been King Cakobau's war club has been sent as a present to Queen Victoria, through Sir Hercules kobmson. It is about 3 feet 6 inches in length, and made of dense, hard wood, stained black, and highly polished, resembling in shape a stout, well-rounded walking club. Hound the handle are a group of cocoa palms wrought in silver; fern leaves gradually entwine upward toward the head, with doves carrying olive leaves in their mouths, and the top or knob is surmounted by a crown, all of solid silver, at was formerly used as a mace by the self-constituted Government from whose hands Fiji has now been wrested. Mrs. Mary A. Livermore lectured to a large andience in the Brooklyn Academy recently, "Concerning Husbands." Judge McCue, Horace B. Claffin, Homer B. Sprague, and other well-known husbands were leaved.

B. Sprague, and other well-known hus-bands were there. In her talk she said: "Last summer many very unhandsome paragraphs were going about the counparagraphs were going about the country about woman's devotion to the clergy. I only wish women knew what they owe to the ciergy, From early times they have been woman's best frient. The right to a dower, proprietary right, liberty of action, and much eise is due to the ministers, who, while dependent on the State for a living, sacrificed themselves for woman's good, lifting the lash from off her back."

Rev. Dr. Ormiston, of New York, has

Rev. Dr. Ormiston, of New York, has met with an accident which may orippie him for life. As he was stepping from the sidewalk to a street car the other day a tendom of one of his legs broke about midway from the knee to the ankie. The snapping of the cord was like the sound of a pistol, and he supposed at first that he had been shot. He reached home with great difficulty and intense suffering, and surgical aid was soon at hand. The breaking of the bones would have been a light matter compared with this, as the broken tendon contracts each bout midway from the knee to the ankle tms, as the procent endoncontracts each way, and the reunion is a slow and pre-carious process. The leg is now tightly encased, and its use dispensed with for a couple of months at least. In the mean time Dr. Ormiston is not idle. He gets about on crutches, and was in his pulpit last Sunday.

Recently, a man appointed to the office of notary public in South Carolina, on the recommendation of the entire legislative delegation from the country in which he resided, sent to the Governor his oath of office in order to obtain his commission. The document bore the appointee's mark instead of a signature, the man being un-able to write his own name. The ap-pointment was at once revoked.

Wife-Catching.

The marriage cerimony is performed curiously by the Esquimaux. When a boy kills a polar bear, it is considered sufficient proof of his ability to maintain a family; he is therefore told to go and catch a wife. Watching his opportunity at night, he pounces upon a victim, and attempts to carry her off; she however, struggles and shrieks, until she has collected round her a group of sympathizers. She then turns upon her captor, and bites and scratches until he is compelled to release her; then she darts into the crowd and attempts to escape. The relied to release her; then she darts into the crowd and attempts to escape. The expectant bridegroom follows her, but not unmolested. All the old women take scourges of seal skin and flageliate him unmercifully as he passes, making at the same time every effort to arrest him in his course. If, despite these little impediments to matrimonial biles, he should catch his victim, the biting and scratching scene is renewed, and in all probability he is compelled to release her, and the chase, with its attendant discomforts, is resumed. Should be overcome all obstacles, the third capture proves effectual, and the victim, ceasing her struggles, is led away amid the acclamations and rejoicings of the assembled multitude.

The New Scriptures, According to Tyndall, Hux ley, Spencer and Darwin

1. Primarily the Unknowable moved upon cosmos and evolved protoplasm.
2. And protoplasm was inorganic and undifferentiated, containing all things in potential energy; and a spirit of evolution moved upon the fluid mass.
3. And the Unknowable said, let atoms attract; and their contact begat light, heat and electricity.
4. And the Unconditioned differentiated the atoms, each after its kind; and their combinations begat rock, air and water. CHAPTER 1.

6. And cell by nutrition evolved primordial germ, and germ developed pro-togene; and protogene begat eozoon, and eozoon begat monad, and monad begat

animalculæ. 7. And animalcule begat ephemera; then began creeping things to multiply on the face of the earth.

gat vertebrata.

11. Now these are the generation of the higher vertebrata, in the cosmic period that the Unknowable evoluted the bipedal mammalia.

12. And every man of the earth, while he was yet a monkey, and the horse while he was a bipparion, and the hipparion before he was an oredon.

13. Out of the ascidian came the amphibian and begat pentalhacivie; and the

bian and begat pentadactyle; and the pentadactyle by inheritance and selec-tion produced the hylobate from which are the simiade in all their tribes.

14. And out of the simiade the lemur prevailed above his fellows and produced

the platyrhine monkey.

15. And the platyrhine begat the catar-

the and the catarrhine monkey begat the anthropoid ape, and the ape begat the long manous orang, and the orang begat the chimpanzee, and the chimpan-zee evoluted the what-is-it went into the land of Nod and took him a wife of the

long manous gibbons.

17. And in process of the cosmic period were born unto them and their children the anthropomorphic primordial types. 18. The homuniculus, the prognathus, the troglodyte, the autochthon, the terragen—these are the generations of

primeval man.

19. And primeval man was naked and not ashamed, but lived in quadrumanous innoceace, and struggled mightly to narmonize with the environment.

monize with the environment.

20. And by inheritance and natural selection did he progress from the stable and homogeneous to the complex and heterogeneous—for the weakes died and the strongest grew and mutip ied.

21. And man grew a thumb for that he had need of it, and developed capacities for page.

tor prey.
22. For, behold the swiftest men caught

the most animals, and the swittest ani-mals got away from the most men; where-fore the slow animals were eaten and the slow men starved to death,
23. And as types were differentiated the weaker types continually disap-

peared. 24. And the earth was filled with vio lence; for man strove with man, and tribe with tribe, whereby they killed off the weak and foolish and secored the survi-

J. T. Fields, in his recent lecture in

ew, said: He is himself, and we should judge not by negations, not by what one is not. "There is no best in kind but in degree." Our own time is stimulated in Longfel-low; he teaches us to live in the present, pursuing and achieving. He is a morning-star of poetry, singing onward, and not in the despondent tone so common in poetry; but he is sympathtic. "Only the sorrows of others throw their shadows over me." Since Pope no one has been over me." Since Pope no one has been quoded more than he, in books, in pulpits, in the British Parliament. He had heard in the British Parliament. He had heard him quoted by a monk in a cowl, sung at a New Hampshire camp meeting, and seen his book in an ale-shop. "Hiawatha" has been translated into Latin; the Emperor of Brazil himself translated "Robert of Sicily," and "Evangeine" has gone through three German translations. His language is that of a man to man, plain to be understood, and this popularity is a test of greatness. Mr. Longfellow related to Mr. Fields that he received testimonials of respects from received testimonials of respects from the Queen of England, and o her digni-taries, but nothing had ever touched him more desply than the compliment of an English hod-carrier, who came to his carriage and requested the privilege of English hod-carrier, who came to his carriage and requested the privilege of taking the hand of him who had written "Voices of the Night." It would be pleasant, he said, to know the circumstances under which Bryant wrote "Thanatopsis." Tennyson his "Bugle Song," and Wordsworth his "Intimations of Immortality." He happened to know something of the circumstances under which Longfellow wrote some of his pieces. "The Song of Life" was written on a bright and sunny morning, kept long before it was published. "Light of Stars" was written on a summer night while the moon was shining over Mount Auburn, and the planet Mars was burning like a living coal. "Wreck of the Hesperus" was the result of midnight musings; "Skeletor in Armon" was written at Newport, and "Evangeline" was first suggested to Hawthrone, who, having no taste for such subjects, turned it over to Long ellow. The word "Excelsior" caught his eye late one night on a newspaper, and he then wrote the verses down on the blank portions of a letter from Charles Sumner.

It has been noticed in several cases that, when one-quarter of a grain of morphine would not produce sleep, if ten grains of quinine, were administered a snort time previous to admidiatering the morphine, the morphine would almost invariably act efficiently.

The most novel party chronicled thus iar this senson was given last week by a lady for the purpose of exhibiting to a select few her new parior carpets made "abroad to order." By and by we will have parties to see the housemaid clean the paint and wash the front windows.

THE CINCINNATI STAR:

WALNUT HILLS—There is no scrambling worth speaking of for outside scats on the omnibuses.

The Temperance League has again placed itself squarely on record against a license law. This time it is a show license.

It is now in order for the League to de-

fine its position on the marriage license law.

The defeat of the "licence clause" at the August election was not understood at the time, as repealing any of the city

ed the atoms, each after its kind; and their combinations begat rock, air and water.

5. And there went out a spirit of evolution from the Unconditioned, and working in protoplasm, by accretion and absorption produced the organic cell.

was assured that in any event it was "all right."
The Board of Public Improvements is

The Board of Public Improvements is advertising for proposals for improving Chappell, Viue and Kirby streets. During the present cold weather, the omnibus drivers have displayed an amount of endurance, which, if properly directed, would discover the North Pole.

on the face of the earth.

8. And earthly atom in vegetable protoplasm begat the molecule, and thence came all grass and every herb in the earth.

9. And animalculæ in the water evolved fins, tails, claws, and scales; and in the air wings and beaks; and on the land they sprouted such organs as were necessary as piayed upon by the environment.

10. And by accretion and absorption came the radiata and articulata begat vertebrata.

11. Now these are the generation of the higher vertebrata, in the cosmic period that the Unknowable evoluted the bipedal mammalia.

12. And every man of the earth, while he was yet a monkey, and the horse which he was yet a monkey, and the hipparion before he was an oredon.

when one very small one would have answered the purpose.

LEXINGTON, KY. — Judge Mulligan, who presides over a little Piepoudre Court in this city for the trial of petty onenses, is bringing justice into disrepute by imitating Judge McManama's petty acts of severity. Recently he fined a stranger and publicly reprimanded him for spitting on the dirty floor of the court room.

The bakers of this city are literally The bakers of this city are literally robbing the poor by charging famine prices for their bread. They are selling this necessary article of life at a profit of over one hundred per cent. This is a proper subject for municipal consideration and regulation.

The right of way through Fayette county for the Cincinnati Southern Raticad will cost from \$30,000 to \$35,009. This will be paid by the Citizens' Subscription Fund.

Major Mullican, the moving spirit in the city government, should look after the extortionate bakers and compel them to furnish the staff of life at less than a hundred per cent, profit.

to furnish the staft of life at less than a hundred per cent, profit.

The City of Lexington subscribed \$250,000 to the Big Sandy Rairroad, with the understanding that the road would be built to the coal regions. The line was finished to Mount Sterling and stopped there. The subject is now before the Common Plens Court in this city.

The proposed bridge on the Kentucky River, near Shaker Landing, for the Southern Rairroad, will be the highest in the world. It will be 275 feet high and 1,242 teet long.

the world. It will be 275 feet high and 1,242 teet long.

Eider J. B. McGinn, of this city, has accepted the call to take charge of the Christian Church at Winchester.

The Mt. Stering Sentinel says that the railroad to the coal regions will be finished during the present year. This will be cheering news to the citizens of Levington.

HAMILTON-If any of our citizens would tured in the year 1795 can have the pleasure of so doing by calling on Mr. Thomas Runyon. The instrument was manufac-

Runyon. The instrument was manufactured in London, England, and is still in a good state of preservation.

Squire Mechley's friends want him to run for Mayor. What will 'Squire Bachman do if the former consents?

A railroad to the coal regions of Ohio—and coal as twelve cents per bushel dumped at your doors—wouldn't be a bad subject for the late Board of Trade to discuss. Awake, ye sleepers!

to discuss. Awake, ye sleepers! There were 690 tramps entertained at the Hotel de Ferrie during the month of December.

The health of the Hon, L. D. Campbell is at present better than it has been for

is at present better than it has been for the past several years.

A third new stone-front building is about to be erected on High street. This time it is the First National Bank that will build. The site intended is the lot owned by Mr. Campbell, lately occupied by Hartman.

The old adage that "one fool makes more" does not hold good, or at least should be reversed, and read thusiy: "One wise man makes more." Less than a year ago the Second Mational Bank built a fine stone iront building between Second and Third, and scarce had the first stone been laid before Weidenboner, the ard Third, and scarce had the first stone been laid before Weidenboner, the wholesale shoe man, thought a stone front would not be out of place on his lot, and forthwith erected a building, of which our citizens may well be proud. We hope the march of improvement will go on until all the old buildings be-tween Second and Third streets will be swept away and new ones erected. Who will be the next?

Complaints are now made that the stone of which the new, Chicago Custom House is built, contains numerous iron and petroleum veins. These veins, it is reported, do not always appear until six months after the stone is cut. Some of these stones in the inner corridors of the custom house building are reported to have as many as six patches, where to have as many as six patches, where the petroleum and iron blotches have been dug out and patched.

been dug out and patched.

The Mammoth Cave of Mexico.

It is said that the Cave of Cacanuamilpa is the largest cave which is yet known in the world. Several persons have visited the Mammoth Cave of Kentucky and that of Cacanuamilpa in Mexico, pronunce the latter the larger. A volcanic mountain, with an extinct crater, covers the cave. It is not described in guide books of travel. It has, in fact, never been described. Mr. Porter C. Bliss has twice examined and explored never been described. Mr. Porter C. Bliss has twice examined and explored it, the last in Feburary, 1874. Six hundred men constituted the exploring party; they were provided with Bengal lights and scientific appliances. After reaching a level at perhaps fifty-feet depth, they proceeded 32 miles into the interior. The roof was so high—a succession of halls—that rocks often exploded before striking it. Labarynthine passages leave the main hall in every direction Stalagmines and stalactics are abundant. Below this cave, at a great depth, are two other immense caves.
